

Build. Distribute. Adopt.

Stencil is a toolchain for building reusable, scalable Design Systems.
Generate small, blazing fast, and 100% standards based Web
Components that run in every browser.

[GET STARTED](#)[WHY STENCIL?](#)

Powering design systems and
cross-framework components at

stencilijs.com

```
$ npm init stencil
```

stenciljs.com

```
$ npm init stencil
```

Thank You
